User Guide

**Government Emergency
Telecommunications
Service**

PURPOSE

The Government Emergency Telecommunications Service (GETS) is a National Security and Emergency Preparedness (NS/EP) service of the federal government. This User Guide will show you how to place a GETS call and how to obtain assistance.

NOTE: GETS is to be used only by authorized federal, state and local government and other authorized personnel when they are unable to complete emergency calls through normal or alternate telecommunications means using the public telephone network.

GETS provides:

- An increased probability of completing your emergency calls when normal calling methods fail
- Voice and data transmission via clear or secure telephone, facsimile, modem, or other equipment
- A single, universal telephone number and a Personal Identification Number (PIN) which allows you to access the service worldwide
- Calling to all 50 states and any worldwide destination
- Capabilities to enable rapid detection of suspected fraud
- A toll-free number for User Assistance available 24 hours

PLACING A GETS CALL

You need **3** things to use GETS

- 1** A working telephone or cell phone connected to the public telephone network
- 2** The universal access number for GETS
1-710-NCS-GETS
(1-710-627-4387)
- 3** A Personal Identification Number (PIN) on your GETS card

GETS calls cannot be made to toll free 800, 888, 877, 866, 855 destination numbers

GETS USER ASSISTANCE

Help is available 24 hours a day by calling GETS User Assistance:

1-800-818-GETS (4387)

or

703-818-GETS

User Assistance can help with:

- Questions about GETS
- Problems in using GETS
- A lost or stolen PIN card
- Suspected fraud

For identification, User Assistance personnel may request the password provided with your GETS card.

When reporting GETS problems to User Assistance, provide complete details, including the origination location of the call, the digits dialed, specific difficulties encountered, and error messages received. This information will permit User Assistance to determine where the call failed so that the trouble may be referred to the appropriate source for correction. It will also enable them to provide additional guidance that may help you complete your call.

SAFE- GUARDING YOUR PIN

You should exercise care in handling and entering your PIN. Report a lost GETS card as soon as possible. When you do this, your PIN will be canceled, and you will be issued a new one. To help prevent fraud you should do the following:

- Guard your PIN from compromise by not openly exposing your card or PIN to anyone
- Memorize your PIN and password
- Report a lost or stolen GETS card as soon as possible by calling User Assistance at 1-800-818-GETS (1-800-818-4387), and also notify your POC.
- Be aware of people loitering when you make calls in public places
- Use a normal conversational tone when placing operator assisted calls to avoid being overheard
- Never use your GETS card to verify your identity
- Never reveal your PIN to anyone other than a GETS operator or a GETS User Assistance representative you have called
- Never share your PIN with others unless authorized to do so by your organization. Please call GETS User Assistance to advise them of the multiple users. When the need for multiple users of your PIN no longer exists, advise GETS User Assistance and your old PIN will be canceled and a new card with a new PIN will be issued to you.
